**PART - II****English****SECTION - A****( Reading Comprehension )**

**Direction :** Read the passage and answer the questions that follow :

Children acquire varied skills naturally while growing up in their environment. They also observe life and the world around them. When imported into classrooms, their questions and queries can enrich the curriculum and make it more creative. Such reforms will also facilitate the practice of the widely acknowledged curricular principles of moving from 'known to unknown', from 'concrete to abstract', and from 'local to global'. For this purpose, the concept of critical pedagogy has to be practised in all dimensions of school education, including teacher education. It is here that, for instance, productive work can become an effective pedagogic medium for (a) connecting classroom knowledge to the life experiences of children; (b) allowing children from marginalised sections of society, having knowledge and skills related to work, to gain a definite edge and respect among their peers from privileged sections; and (c) facilitating a growing appreciation of cumulative human experience, knowledge and theories by building rationally upon the contextual experiences.

Choose the most appropriate alternatives :

016. While growing up in their natural environment, children acquire varied skills, which may not include

- (A) observing life and the world around them
- (B) asking questions on their observations
- (C) moving from known to unknown
- (D) enhancing dependence on textbooks.

  - (D) None of these.
018. The practice of 'Critical Pedagogy' implies that
- (A) the teacher has to engage children in the process of problem posing
  - (B) the teacher should supply knowledge to students
  - (C) only the teachers know everything and students know nothing
  - (D) the teacher is the authority, a student has to remain receiver of knowledge.
019. Productive work can become an effective pedagogic medium for which of the following ?
- (A) For completion of homework
  - (B) For connecting classroom knowledge to the life experiences of children
  - (C) For scoring high marks in examinations
  - (D) For children with learning disabilities only.
